

Dragon Asphalt Ltd is committed to reducing the environmental impacts of our activities, preventing pollution and enhancing our environment through the application of best practice, innovation and expertise.

- Dragon Asphalt Ltd strives to ensure that it undertakes its activities in full compliance with applicable legal and other requirements to which the company subscribes. Our policy shall be to evaluate and reduce the environmental impacts of our activities by means of waste reduction, re-use and recycling and the adoption of further sustainable practices for the betterment of our clients.
- To accomplish this the company shall establish and maintain an Integrated Management System (IMS) which shall at least meet the requirements of BS EN 14001 and thereafter define the procedures used by all staff, contractors and suppliers to achieve the following objectives:
 - Establish programs of training and awareness which encourage all staff and sub-contractors to participate in the continuous improvement of working practices and quality of services in order to build a sustainable future for ourselves and our customers.
 - Ensure full and current awareness of national, local and client derived legislation, regulation and methods of work, including contract specific requirements of practices.
 - Comply fully with all such legislation and regulation and employ industry best practices.
 - Determine procedures of effective measurement and records of performance monitor and achieve established targets.
 - Establish formal and informal consultation with customers, employees and associates to ensure continuous review and improvement of environmental performance.
